

## ACCESSORIES

### NanoTek Cooling Fan (120mm, 80mm)

The Nano Bearing is made of low friction plastic and dense soft metal molded into one piece. The surface of the bearing is coated with a nano layer substance to reduce friction and thus increase durability.

- Multi-country Patent in the United States, Germany, Japan, Taiwan and China
- Lubricant Free. Operation in extreme temperature from -40 to 100 degree Celsius guaranteed!
- Waterproof, Dust-proof (IP 5 / 6)
- Because there's no lubricant needed, Nano fan is both water and dust proof
- Ultra High Lifetime, 3x lifetime than traditional bearings

## ACCESSORIES

### SATA Mobile Rack (MRA200, MRA300)

- 3.5" HDD silver internal mobile rack
- Hard drive tray not needed
- 7pin SATA and 15pin power connector input
- Hot Swappable
- Built-in anti-shock design
- Internal cooling fan available in MRA300
